To: Suppliers and Users of Belden Products

Re: MSDS for Belden Products

Under the current OSHA Hazard Communication law [Title 29, Code of Federal Regulations, Part 1910.1200(c)], our product would be classified as an "article":

Article - A Manufactured item: (1) which is formed to a specific shape or design during manufacture; (2) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (3) which under normal conditions of use does not release more than very small quantities of a hazardous chemical and does not pose a physical hazard or health risk to employees.

Therefore, a Material Safety Data Sheet is not required for our products and is not available. [Reference: 29 CFR 1910.1200(b)(6)(v)].

If you require specific environmental, health or safety information on this product, please contact our customer service department and we will try to provide it to you in a timely manner.
