

February 3, 2014

Dear Valued Customer,

This letter serves as your formal notification that Belden is initiating the End of Life process for the **Hirschmann Eagle 20** family of products. The key milestones and affected part numbers are listed in this letter. The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases, as well as to suggest alternative products. For more information on Belden's end-of-life policy for Industrial Networking products, please visit [www.belden.com/eol](http://www.belden.com/eol).

The standard warranty terms will be honored for all units shipped up to the Last Shipment Date. Orders placed between the Announcement Date and the Last Order Date are non-cancelable and non-refundable.

**End of Life Milestones**

Milestone	Date
End of Life Announcement Date	February 3, 2014
Last Order Date	October 31, 2014
Last Shipment Date	December 30, 2014
Last Service Date	December 30, 2019

Special contracts in place and active prior to the Announcement Date with regard to product availability, warranty, or support terms will be honored according to the terms of that contract. Belden will make every effort to have the products available for purchase until the Last Order Date; however, there may be situations where material constraints cause the supply to be exhausted sooner.

The EAGLE One Security Router is intended as a full drop-in replacement for the EAGLE 20 Security Router. The Eagle One features identical software as the EAGLE 20, as well as identical housing specifications to guarantee identical product behaviour between EAGLE 20 and EAGLE One.

EAGLE 20 device configurations and the ACA-21 can be re-used on the EAGLE One. 1:1 replacements for EAGLE 20 units with the same specifications and approvals can be ordered through the replacement part numbers stated in the product table below. Additional newly available specifications (e.g. extended temperature and additional approvals) can be ordered through the open variant configuration of the base model. It is recommended that customers switch to EAGLE One, either the 1:1 replacement or a version with upgraded specifications, at their earliest convenience to take full advantage of the improved product offer.

**End-of-Life Product(s)**

EOL Part No.	Description	Replacement Part No.	Description
943987-001	Eagle 20 TX/TX	942103-001	Eagle One TX/TX
943987-002	Eagle 20 TX/MM	942103-002	Eagle One TX/MM
943987-004	Eagle 20 MM/TX	942103-004	Eagle One MM/TX
943987-005	Eagle 20 MM/MM	942103-005	Eagle One MM/MM

If you have any questions or for assistance selecting alternative products, please contact your local Belden sales representative ([North America contact information](#) and [International contact information](#)).

Sincerely,

Carey Trost  
Director, Product Management
